Home

This is a Quarto book.

To learn more about Quarto books visit <https://quarto.org/docs/books>.

Part I

Intro

1 Intro and Poker Foundations

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

2 TEST POKER TRADING

3 Poker and Trading

3.1 Test layer 2

3.1.1 Test layer 3

3.2 Test layer 2 again

$$E = mc^2$$

4 Python Foundations and Hello Poker Poker Math

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Part II

Game Theory and Decision Making

5 Game Theory Foundations

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

6 Decision Making Under Uncertainty

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

7 Toy Poker Games and Optimization

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

8 Game Trees

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Part III

CFR and Solvers

9 Counterfactual Regret Minimization (CFR)

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

10 Monte Carlo Methods

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

11 Solvers and Poker Strategy

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Part IV

Machine Learning and Deep Learning

12 Machine Learning Math

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

13 Machine Learning

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

14 Deep Learning

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

15 Reinforcement Learning

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Part V

AI Poker Today

16 AI Poker Agents

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

17 Recent AI Advances

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Part VI

Advanced Topics

18 Opponent Modeling

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

19 Transformers and LLMs with PokerGPT

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

20 AI Risks and Safety

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Part VII

Projects

21 Projects

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.

Knuth, Donald E. 1984. “Literate Programming.” *Comput. J.* 27 (2): 97–111. <https://doi.org/10.1093/comjnl/27.2.97>.
